

GUNAÏKOLOGY

To **MAHSA AMINI**,
Iranian girl tortured, raped and killed for refusing to wear the veil,
to all those who fight against the **subordination** of Women,
to all those who reject trans identity in all kinds of sports,
to all those who denounce Feminine Genital Mutilation,
to all those who fight against the Islamic Sharia law,
to all those who refuse forced child marriages,
to all those who reject homogenization and
to my two Daughters and to my Mother.

Gunaïkology is the Feminine version of Anthropology.

TEMPO PRIMO

A script just to explain an invented word? Why not! But not really only for that. NO! The fact is that I really enjoy inventing words, enjoy a lot, and it often happens that my invented words are titles of my scripts. That's indeed the case here.

Furthermore, I write in French only. If I were able to write in English, I would. But that's not the case at all. I'm not able to fully grasp the meaning of many English words and idioms.

English, in my view, is a flexible, rich, and generous language, generous in the sense that it is open, in the sense that it skillfully incorporates words from elsewhere, from other languages, from languages whose sounds are sometimes impossible to pronounce in English. The French "U" is a prime example. Conversely, there is the case of the tongue movement required to pronounce correctly "Th..." (Them). I just can't do it!

That said, when I invent a word, I try to make it bilingual as much as possible. For example: **LUSSONANCE** - **TURLUR** - **MIMCODE**. But in the case at hand, for a quite particular reason, that's simply not possible

That being said, out of respect for English readers, I must explain certain French linguistic peculiarities here. This means that this script does contain explanations written for English readers, explanations that will teach nothing to French readers.

BUT BEFORE EXPLAINING THE LINGUISTIC PROBLEM AT ISSUE HERE, LET'S TAKE A SHORT PAUSE DEDICATED TO THE ALL TOO IMPORTANT, THE **VITAL** QUESTION OF

WOMEN'S RIGHTS

WOMEN'S RIGHTS and PEACE are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and LIBERTY are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and JUSTICE are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and DIVERSITY are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and UNIQUENESS are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and SPIRITUALITY are inseparable.

ONLY free Women from everywhere are capable of saving Humanity.

ONLY

We still live in a world where Women are ignored, a world where, for 5,000 years or so, Women have not existed.

We still live in a world where pedophilia is legalized.
Iraq is preparing to lower the legal age of consent from 18 to 9 years old.

WOMEN'S RIGHTS and SUBORDINATION are incompatible.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and HOMOGENIZATION are incompatible.

ONLY free Women from everywhere are capable of saving Humanity.

WOMEN'S RIGHTS and TRANS-IDENTITY are incompatible.

ONLY free Women from everywhere are capable of saving Humanity.

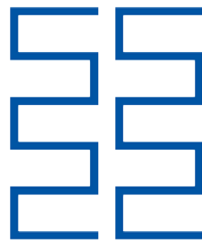

WOMEN'S RIGHTS and PREGNANT MAN are incompatible.

ONLY free Women from everywhere are capable of saving Humanity..

WOMEN'S RIGHTS and PEDOPHILIA are incompatible.

ONLY free Women from everywhere are capable of saving Humanity.

Could Sharia be a pedophile ideology?

ETYMOLOGICAL ZOOM

The Greek word **γυναικός** — — **gunai̯kós** — — the genitive of **γυνή** — — means « **WOMAN** » or « **WIFE** ».

Its phonetic pronunciation is **NA - Ĩ - KO**

The phonetic pronunciation thus occurs in three stages, three syllables.

With this clarified, we must also consider the role of the diaeresis in French.

Let's listen to **OIIO** my browser

The diaeresis (¨) is an orthographic sign placed on the vowels e, i and u. Its main function is to indicate that this vowel **must be pronounced separately** from the letter preceding it, thus preventing the formation of a single sound (diphthong).

It follows from the above that the word I invented has, by the effect of the diaeresis, six (6) syllables and not five (5), in French as in English.

GU - NA - Ï - KO - LO - GIE

GU - NA - Ï - KO - LO - GY

And this is where arises the quite touchy problem of what is called

« UNTRANSLABILITY »

OIIIO -

*« UNTRANSLABILITY » refers to the impossibility of faithfully translating a text, expression, or concept from one language to another. This phenomenon occurs when the original idea is intimately linked to the history, culture, or **grammatical structure** of the source language, rendering any literal equivalent inaccurate.*

"A whim of mine," you might say? Not at all!

I understood the importance of this matter of impossible translation the day I asked my online translator to give me the English for «**TRÉMA**». Big surprise! Huge surprise! Almost a shock! **UMLAUT**

TRÉMA = UMLAUT

And then, almost instantly, I understood where this strange, unexpected word came from because a certain diaeresis (TRÉMA/UMLAUT) came back to me, the one I inserted on November 5, 2025, in the opening page of my script "RE-ROOTING". Here is a part of it, **re-colored** for the occasion.

=====

THREE VISIONARIES

A VISIONARY is a person who senses or foresees in advance an event, a situation, a social movement, an artistic trend, a scientific discovery, a political revolution, in short, something that will happen and spread later in the future. In this light, two questions immediately arise. First, "Who" are we talking about? Second, "What" are we talking about?

1 «Who» — Arnold SchÖnberg — «What» — UPROOTING

2 «Who» — Norman Mailer — «What» — HOMOGENIZATION - D.E.I.

3 «Who» — Donald J. Trump — «What» — RE-ROOTING

=====

What this impossible to translate «diaeresis» (TRÉMA/UMLAUT) linguistic particularity may mean for the English language?

This means that, for the first time in its history—or so I suppose—for the first time, the English language, what an enrichment, accepts into its ranks **diaeresis** (UMLAUT) not of Germanic origin, like **SchÖnberg**, but of French origin. In this light, my invented word becomes.....

RING THE TRUMPETS

.....my invented word becomes a WORLD FIRST IN THE KINGDOM OF ENGLISH TERMINOLOGY.

TEMPO SECUNDO

That said, I could not specify the number of scripts in which I have decried the fact that there have never been any essays, studies, theses or high-visibility publications that have been written specifically in relation to the foundational and vital place that "WOMEN" have occupied in almost all aspects of society since thousands of years.

Let's listen to OIIO, my browser:

Anthropology is a scientific discipline situated at the intersection of various human and natural sciences, which studies ?Human beings? and human groups in all their aspects, both physical and cultural.

*Anthropology uses the same objects and methods as ethnology. The broadest chapter of natural history, anthropology aims to be a monograph on the genus **HOMO**, describing and analyzing "anthropological facts"—that is, the characteristics of **MAN**, of **HOMINIZATION**, and of humanity.*

The term anthropology comes from two Greek words: **ANTHRÔPOS**, meaning "**MAN**" and logos, meaning science, word, or discourse.

You can't get more masculine than that!

But should we be surprised?

RELIGION WAS BUILT TO CONTROL WOMEN.

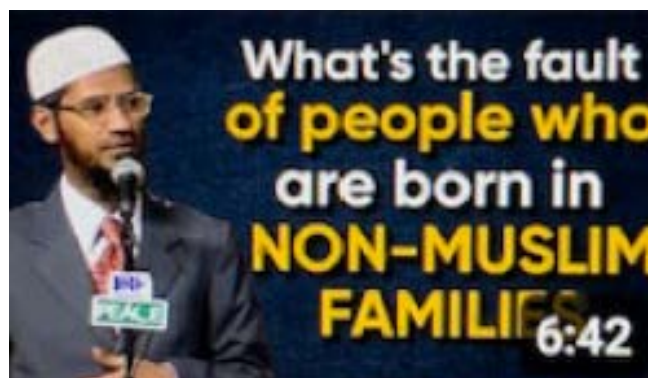

I HAVE NO HOPE LEFT FOR AFGHANISTAN.

But it's not over yet, far from it, alas!

Let's listen to OIIO -

The fundamental reference text for the UN is the Universal Declaration of **MAN'S** Rights (**DUDH**), adopted on December 10, 1948. It sets out, in 30 articles, the fundamental and inalienable rights of every **human being**.

I wonder what a young bride, forced into pregnancy, may think about all this. And what does the irresponsible and incompetent Secretary-General of the UN think? I'm talking about António Manuel de Oliveira Guterres, the

one who turns a blind eye to the mountains of horrors of the Muslim ideology that claims that everything that isn't Muslim is DEFECTIVE.

AND THE CHARTER, MR. SECRETARY-GENERAL? AND THE CHARTER?

UNIVERSAL DECLARATION OF MAN'S (in French) RIGHTS

On December 10, 1948, the 58 Member States that then constituted the General Assembly adopted the Universal Declaration of MAN'S Rights in Paris. To commemorate its adoption, MAN'S Rights Day is celebrated every year on December 10. This foundational document, translated into more than 500 different languages, continues to be a source of inspiration for each of us to promote the universal exercise of MAN'S rights.

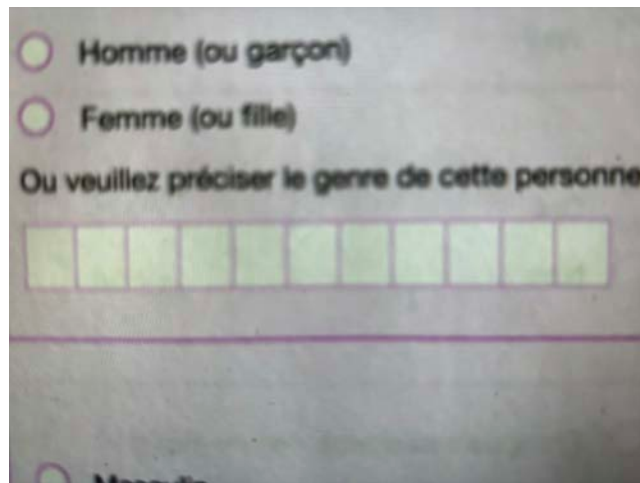

You can't get less Feminine than that!

The use of the word "MAN" to represent all human beings (MEN and Women) comes from its Latin etymology (HOMO), which designates the ENTIRE SPECIES.

DID YOU SAY «TWO » SEXES »?

Imagine! In the forms put forward by the totally irresponsible « **C.A.Q.** », the « **Coalition-Avenir-Québec** », the presently reigning political party, to the question about sex, there are, it's so stupid, it's so misogynistic, it's so disconnected from reality, it's so insane, in the form regarding sexual identity, there are, believe it or not, **three** choices, not **two**, « **3** ».

But that's not all! On the 2026 Canadian census form, I found:

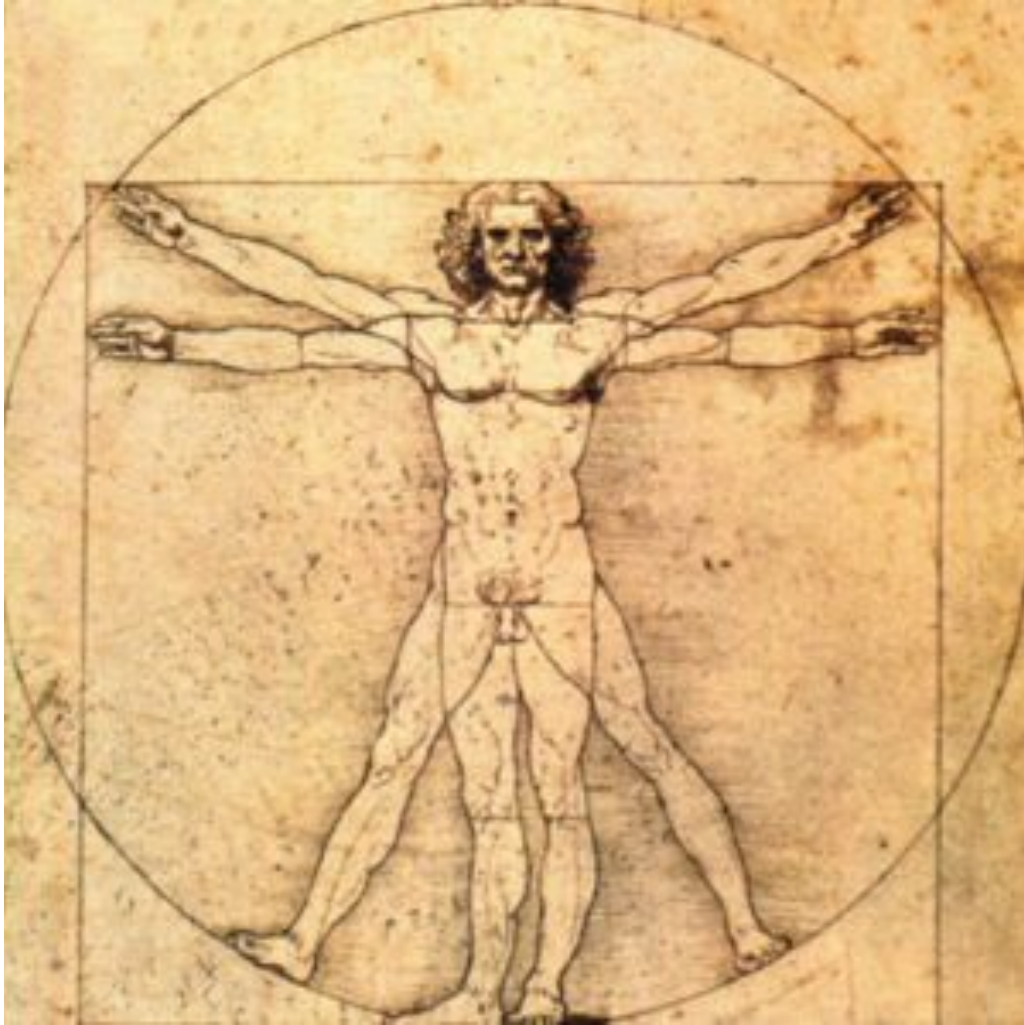

MAN (OR BOY)

WOMAN (OR GIRL)

OR PLEASE SPECIFY THE **GENDER** OF THIS PERSON.

As a result, when the time comes to **IDEALIZE** Hu**MAN** beings, as if "Being" could only be masculine, as if the expression "Woman Being" couldn't exist, then the choice is obvious, isn't it? The choice to represent Hu**MAN**ity as a whole, the best choice, it's the one made by the author of the Mona Lisa:

VITRUVIAN MAN

**A WOMAN?
WHAT'S THAT?
WHAT IS A WOMAN?**

WOMEN'S RIGHTS and PEACE are inseparable.
ONLY free Women from everywhere are capable of saving Humanity.
